**THE  
GENERAL CONFERENCE  
MENNONITE CHURCH**

# FOREWORD

The publication of the annual handbook of information is a service of the General Conference Headquarters Office to the Churches of our Conference, to members of Boards and Committees, to officers, to all the various institutions of our Conference, such as schools, hospitals, homes for the aged, and all others for whom the information contained within these pages is almost indispensable.

Herewith we wish to express our thanks to all who have cooperated to make this publication possible. We regret to state that there are some twenty Churches from whom we were not able to get statistical information. For this reason the reports are not quite complete nor entirely accurate. It is our sincere hope that next year we may be able to get a more complete response.

A few changes have been made in this issue of the year book. To make it easier to find the names of our ministers and churches three lists have been prepared, each different in its alphabetical arrangement. The ministers are listed alphabetically according to their names. The Congregational Officers Directory is arranged according to the names of the churches in their respective districts. In the statistical reports the churches are listed alphabetically according to geographic location or post office addresses.

You will find another change in the statistical reports in that there are vertical summaries as well as horizontal. This will enable you to see at a glance the total membership of the churches in each district, as well as the total contributions of the churches to local support or to the various Conference causes.

Newton, Kansas  
April 30, 1953
